Holy Karma

Shamaré

This excerpt is from *Holy Karma: How to rediscover your Holiness*

In his follow-up to *Spirituality 101–601 and Beyond*, Shamaré explores the return to Holiness through Holy Karma – Divine Cause and Effect.

To rediscover your Holiness and live again in the flow of Holy Karma requires a change of Mind which this book will guide you through. Holiness returns as you release misunderstandings and beliefs that would try and tell you otherwise. Inner voice will guide the way.

As this book shows, if you are sincere about awakening to your Holiness, you cannot fail. Holiness will arrive as you surrender to the will of the one that sent you forth into a world of dualities to awaken and realise, once again, that you prefer living in the singularity of Holy Home or Reality where “Only Love is Real”.

Preface

Holy Karma

This book is not channelled from Jeshua Ben Joseph like the last book but a direct writing from the mind of my Holy Self. However, the seed to start the book was a short, channelled session from Jeshua and is included.

The influence of Jeshua Ben Joseph will be seen throughout the book, as he has been the one entity that has assisted mental changes for myself, allowing the discovering of my own Holiness.

There is always some reflection that takes place when your book is close to completion.

The big question, of course, is whether the primary reason for writing the book has been delivered in the words.

In this preface, I will offer a short summary sketch of what the book holds in the many pages, just to pique your curiosity and start the process of arriving at your own Holiness with Holy Karma flowing.

This book is an expansion of the first channelled Shamaré book *Spirituality 101–601 and Beyond*.

*This book's aim is to assist
as many incarnating souls on Earth as possible
to recovery and refind their own personal Holiness
and in the process of doing this start to live and walk
inside the energy of a new mental framework
called Holy Karma.
This is the state of complete mental well-being.*

You will decide whether the book meets its purpose of helping you to move to Holiness. This can take some time, of course, and it may require several reads. The book contains many new concepts that are discussed in detail.

This Holiness recovery state that leads to Holy Karma requires breaking free from the mental illusion and misperception of believing you are separated from God in some way.

*Holy Karma is the spiritual and conscious
mental operational state
that all incarnated souls will have to surrender into
to return to Holy Peace and Holy Joy
without this false perception of separation.*

Each person's Holy Awareness and Holy Self Love will eventually be elevated sufficiently that the final step to "Realised Holiness" will be just a natural last step. The book will lead you through information on this.

This "Realised Holiness" will allow each soul to fully

participate inside Holy Reality or Holy Home, once again running in the energy of Holy Karma which is Holy Cause and Holy Effect.

This book will be of value to the many now wandering down the various spiritual roads leading them to this “Realised Holiness” with Holy Karma flowing inside their lives.

*You might be amazed at what you read in this book
and how close you are to your own Holiness
moment by moment.*

*You are closer to Holiness than the width of a thought.
Does that seem possible right now?
Read on; you will see it is possible always
Just some encouragement.*

This book uses the word Holy continually throughout the text. This book is quite unique in this respect.

*This is very deliberate, as the word “Holy” acts
as a major textual meaning differentiator
between two possible opposing mental states.*

Holy in this book carries the meaning of “Whole or Complete in a Divine Way”.

This is the state all will return to after the dream of separation from Holy Source God is ended.

Holiness,

*therefore precludes “The mind of ego self”,
the misperception of “self as human body”,
which is a complete denial of
Holiness.*

This is a key point in the book and is discussed in many ways.

You are not the created DNA Human Body!

This book also uses capital letters often to delineate between Holy Reality Information and lower case for misidentified non-holy ego misperceptions.

Additionally, you will find some text that is centred and in italics to highlight some ideas or concepts, like the sections above and below. These become standouts if you are just flipping through the book.

*The meaning and outcome of Holy Karma for you,
in your ongoing incarnated life, will be unique.
The ego world viewpoint will have great difficulty
in understanding the Holy Karma meaning
that you personally discover,
as the world's ego intellect is never able
to fully understand Holiness.*

The ego world as a whole is blinded to Holiness with ego misperceptions, ego misidentifications and will continue to live in complex dualities, with the base emotional and mental states of fear, guilt and

judgement, until the discovery, for each, of their own Holiness at some point.

It will happen. It does happen.

This book is recommended reading for all those desiring to recover their own Holiness and then to allow and surrender to the Holy Karma flow of Divine Cause and Effect that runs the Universe.

This is not a study book.

*You do not study to enter Holy Karma,
or have to believe something to achieve Holiness,
or even believe Holy Karma
exists to arrive at your Holiness.
Holy Karma will appear naturally
when Holiness arises.*

Holiness is your natural mental and emotional birth right.

You chose to return to Holiness by using your great power and desire to heal your mind and then finally surrender to your own Holiness and live inside Holy Karma energy.

*This will arise for you easily,
if you get out of the ego way
in Holy Mental Surrender.*

These points being offered in summary are big clues about the book for you all > Enjoy.

All the best to you all, as you delve into this information, as it prompts you to live inside Holy Karma with your own personal Holiness once again.

*Some of you may find some of the words
and concepts confronting,
just push through
but
recognise the emotional effect as curious.*

Ask: how and why is this so confronting to me?

You might as well start the process right here at the Preface.

Jeshua just prompted me to say to you all, “Waste not another moment”!

Love to you all from Shamaré

Introduction

Holy Karma

How did the two words “Holy Karma” come together for this book?

It is extremely rare to find these two words “Holy” and “Karma” together, side by side!

Most would see karma as a negative concept or bad energy. How can it be Holy?

In fact, in the last Shamaré book, *Spirituality 101–601 and Beyond* that discusses many features of spirituality in depth, the words “Holy Karma” appear only once, in Chapter 601.

Let’s examine the surrounding paragraphs (below) of Chapter 601, to gain an understanding about “Holy Karma”. It may take some time to come to a full realisation, many ups and downs along the way.

But of course, in Reality, we are multi-dimensional entities, and a major piece of us remained safely intact in oneness and right-mindedness always. This right-mindedness is a composite of the Holy ALL. The Divine Itself, and is therefore shared among All, as it originates from the Only One Thing that truly exists at all moments, God Itself.

It is a Pure Spirit Composite of All Spirits, undefiled and Holy, and hence called Holy Spirit, or Divine Spirit. A Dimension of True Self that is always available. This Holy One (The All) lives in Holy or Divine Spirituality, or Whole Spirituality or Natural Spirituality or Original Birthed Spirituality or in “Holy Karma”.

The adding in of “Holy Karma” happened only in the last edit on the *Spirituality 101–601 and Beyond* book, just before going to press, and for very good reasons. Jeshua and some of the ascended masters wanted it added and the two words are a pure summary of those many other words and concepts in those paragraphs.

Hence the two words become a very useful metaphor and therefore can be used as an excellent teaching tool symbol, revealing a set of Holy Revelations and Holy Concepts.

The two words also appeared, of course, so I could write another book and expand on this concept of Holy Karma. I know Jeshua will be very pleased with this discussion on Holiness and Holy Karma.

As you read on, the concept idea and term, “Holy Karma”, leads to a very broad edifying Holy discussion and it is to be viewed as personal info for you the reader. No comparisons with others!

Wrap your Holy Mind in these Holy Concepts as the book unfolds.

*You are reading this in your Holy Mind right now,
you will see this has to be true as you read on.*

It is food for your Holy Mind and Holy Heart.

*“This book could really be endless as Holy Karma
is the Holy Universe Itself in Action,
endlessly unfolding, in Holy Divine Operation
with Infinite patterns of activity
from infinite souls in Divine Purpose,
with the Holy Cause driving Holy Effect (You)”.*

Holy Karma = Holy Cause and Holy Effect

Another point to note about this book, *Holy Karma*, is that it is of a different nature to the book *Spirituality 101–601 and Beyond*, as it can be read differently.

Spirituality 101–601 and Beyond required a linear read from front to back, as the themes and core concepts add to one another incrementally, to help lift the reader to a greater understanding of spirituality and leading to the point of “surrendering misidentified ego”.

This book, *Holy Karma*, after reading the Introduction and Chapters 1, 2, 3, 4, can be read in random order.

It is even possible to flip through all of the book and find highlighted centred italics text that will assist in your mind healing. These are little highlighted snippets to ponder.

The book's purpose and design, therefore, is to elicit remembrance, emotion and imagination from deep down, at the Wonder of Divine Holy Self and Divine Holy Universe and then allowing Holy Karma to bubble up once again and reign supreme in your life, as one of the "Holy Begotten Children of God".

We all have earthly families in this created realm that we love being around to share life's experiences with (mostly!) This book introduces you back to your "Original Holy Family" whom you have spent eternity with already.

You will find Chapters 1, 2, 3, 4 quite deep. Other chapters are short and very concise and obvious.

As you read on further, there may arise up for you a strong awakening desire to "stay the course" and continue in a progressive way, to arrive at "Full awareness in wonder, living inside Holy Karmic energy".

"Reawakening of course and living in Holy Karmic Energy is to become the Holy Instrument that

projects and creates Holy Effects driven directly from Holy Divine Cause”.

Surrender into your Natural Birthed Mental Holy State of Holy Karma as soon as possible.

Use this book regularly to top up your Holiness gas tank; even one page or a single paragraph can shift your emotional field and bring peace to your mind, by recalling your mind back to the Holy Karma flow.

*Because of those two words “Holy Karma”,
I have been given this opportunity, once again,
to write another book to engage your Holy Mind
and your Holy Emotions.*

*To assist you to finally throw off the limits
of ego DNA body-centric humanity
and ego misidentification
and let your Holy Mind explode
into the vastness of Holy Karma once again.*

And in this process, to live life in an entirely different way, without fear, guilt and judgement, in Holy singularity once again, which is sitting continually in Divine Love Flowing, in great joy and peace of mind, participating fully in Holy creativity of the new project arising of a new Heavens and a new Earth.

*It only requires a simple desire to change
and grow the “Love for Your True Holy Self*

and then make a Personal Holy Decision”.

The Holy Decision can only be made in your Holy Mind.

Enjoy the expansion of your Holy Mind, with wonder, and ask how all of this can be so true for me.

Love to you all from Shamaré
